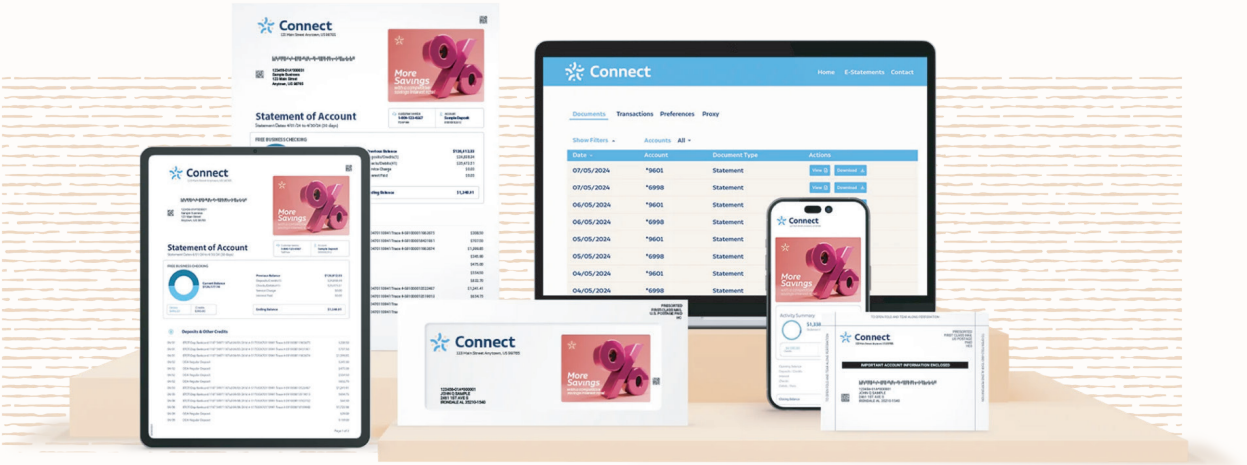
HC3 Make A Statement



We help Financial Institutions create statement efficiencies that align with their unique needs, reducing costs and saving time with a smarter approach to statement processing. By outsourcing member statements with HC3, 700+ financial institutions leverage document design, digital delivery, and print delivery that better reflects their brand.

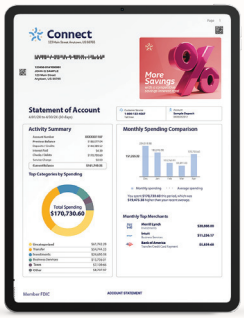
We earn and retain clients through our ability to optimize internal workflows, modernize statement design, ensure seamless technology integration with major core and OLB providers, and grow with our clients. With HC3, you gain efficiency and a strategic partner committed to your success.

> "Having a vendor that works with us on all aspects, including cutting costs that directly affect them in order to build trust is amazing."
>
> **MAX Federal Credit Union, Alabama**

Enhanced Statement Design

We design statements and member communications that reinforce your brand identity and communicate key financial data, giving your members insights to help them make progress on their financial journey.

- Full-color design
- Clear member focal points
- Account summary with key data
- Single line transaction detail
- Targeted marketing



Digital Delivery

Our eStatement solution offers intuitive navigation for members to view through various document types, search transaction history, and manage their document repository.

- Single Sign-On or API integration
- Enrollment management
- Email and text notifications
- Search and filter capabilities
- Individual and bulk downloads

HC3 Make A Statement

Print and Mail Delivery

Our clients reduce material and postage costs by outsourcing their statements and notices with HC3. All of our facilities are qualified by the USPS for seamless entry, meaning your members' mail is in the mail stream as soon as it leaves HC3's facility. Take advantage of our presort postage rates for greater cost savings.

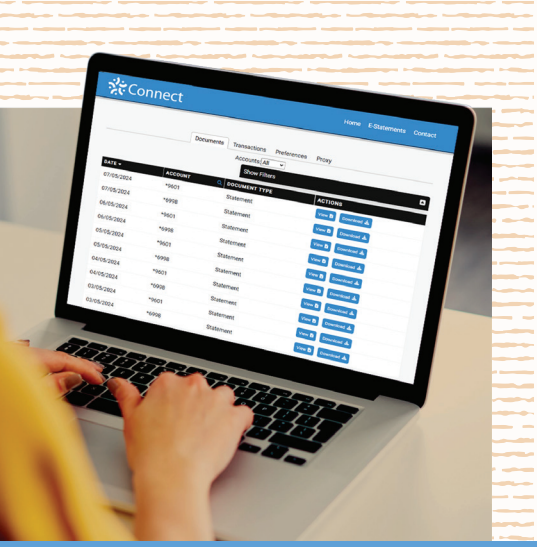
Unmatched Security

Document-specific data is barcoded onto each piece of a mailing. Multiple high-speed cameras count, scan, and audit the mail pieces as they are folded and inserted for letter and flat packages. If a mismatch occurs, our system immediately stops the insertion process, ensuring complete document integrity.

- Double Postcard
- Open Window Envelope
- Mail Tracking
- Return Mail

"We wanted a business partner that would assist us in consolidating our systems for the betterment of our members, allowing us to provide dynamic documents that could be sent through both print and digital channels with ease."

- Chartway Federal Credit Union, Virginia



Gain Customer Insights

HC3 Connect gives you access to job tracking, reporting, and client ticketing. Through HC3's administrative interface, the internal credit union user can perform system configurations for customer service, research and dashboards, oversight functions, and audit tracking.

- Job tracking, mail tracking, proofing
- Notification management
- Access to HC3 tools
- Document archive 24+ months
- Track member enrollment statistics
- User access and audit logs
